Title	G3 Jersey Herd New to Market Due to Late Farm Sale	ID	MAN96139
Agent	Matt Muggeridge	Client	
Location	Manawatu		
Description	Due to late farm sale our vendors offer this well bred Jersey herd to the market after 40 years of family ownership. Farmed near the Tararua range in a challenging dairy area these cows work hard and will shift well from here to anywhere in the country. This herd has been bred for type more so than figures with genetics used from CRV, Samen & ST Genetics and the results show as the cows are very good in the udder and have great conformation. Over the last 10 years this herd has been farmed as OAD on system 3 with PK blend in shed and Baleage. A computer split of 60 have been sold so the vendor is happy to do computer splits to suit buyers requirements or sell the remaining 177 Cows as one herd. For more details or to view this herd please contact Matt today!
