<b>Listing type</b>	Looking to Sell	<b>Stock</b>	Dairy
<b>Contract Type</b>	Dairy Forward Delivery	<b>DairyStock SubType</b>	Herd/Cows
<b>Title</b>	High Altitude Young Semex Herd	<b>ID</b>	TAR91037
<b>Agent</b>	John Preece	<b>Client</b>	
<b>Location</b>	Taranaki		
<b>Description</b>	Hard working herd of cows here being farmed 1500 feet above sea level with an annual ave rainfall of 4m. The herd has been together for 22 years with the last 12 being predominantly Semex bred with a small amount of Crv Ambreed. The vendors have have kept the herd breed specific so Jersey, Freisian and Ayrshire are represented as herds within the herd, and although not registered the cows have all been named. The Jersey content has come from a base that has 60 years breeding behind it. Bulls have always been nominated and a focus on Type, Udder Conformation, Frame and in general a functional sound cow was their breeding criteria. The herd has big potential and will shift well into any farming system. The cows have frame and the type is strong. Vendors are open to a herd split if required by breed.
