Title	Strong High Production Friesian Cows	**ID**	TAR91036
Agent	John Preece	**Client**	
Location	Taranaki		
Description	Friesian content of a herd bred for type and production. Currently on target to achieve 580-600 ms per cow. Cows would slot into a system 4/5 no problem at all. The herd has not been recorded or herd tested in recent times but this does not detract from the look and performance of this very tidy group of mixed age cows.
