Property/Farm address/location details:

Information to be declared and used at the sale of your Feeder Calves:

Calves are supplied from Farm of Origin. Yes No (Tick One)

Have any clusters of the following signs occurred on the farm of origin?: Yes No (Tick One)

- Lameness in adult or young animals due to swollen joints
- Swollen joints
- Incidences of mastitis that have not responded to treatment (especially but not only, any with water/yellow milk)
- Births of smaller than normal calves and/or slips or abortions
- Respiratory disease in calves, particularly pneumonia accompanied by hacking cough
- Ear infections in calves, at times shown as a droopy ear or head tilt
- Animals with conjunctivitis (especially but not only calves)
- Contagious scouring syndromes (observed or diagnosed) eg Rotovirus, Crypto or Salmonella

Are there any known BVD carriers on the farm of origin? Yes No (Tick One)

Is the farm under any restricted movement control or a known forward trace farm for M bovis or ever tested positive for any M bovis testing? Yes No (Tick One)

Please ensure all calves offered for sale are visually healthy and show no signs of the following:

- Eye discharges
- Conjunctivitis
- Respiratory disease
- Diarrhoea
- Ear infections
- Head tilt
- Lameness
- Wet navel

I confirm that all of the above is correct and that if the farm status in respect of any of these issues changes, I will notify NZ Farmers Livestock Ltd and the purchaser immediately.
