This policy does not apply to personal information collected from offline resources and communications, except in cases where such personal information is consolidated with personal information collected by NZ Farmers online. This policy also does not apply to:

- (a) third-party online resources to which NZ Farmer’s website may provide a link to; or
- (b) where NZ Farmers does not control the content of that website; or
- (c) the privacy practices of such resources are outside of our control.

We only collect personal information about you if you choose to give it to us. We do not share any of your personal information with third parties for their own marketing use unless you explicitly give us permission to do so.

1. INFORMATION WE COLLECT

1.1 Personal information

You can visit our website without providing any personal information. We may collect your personal information (including your name, address, telephone number, e-mail address or other identifying information) only when you choose to submit that information to us, whether when registering as a registered user of our trading platform, when placing a listing on our website or when responding to specific questions in response to a listing.

1.2 Aggregate information

In some cases we remove personal identifiers from personal information you provide us and maintain the personal information in aggregate form. We may combine this personal information and data with other information to produce anonymous and aggregated statistical information (including the number of visitors to our website, originating domain name of the Internet Service Provider), which is helpful to us to improve our products and services.

2. INFORMATION AUTOMATICALLY COLLECTED

2.1 Electronic Information

We automatically receive certain types of information whenever you interact with us on our websites and in e-mail correspondence with you, including, for example, Web server logs, your Internet Protocol (IP) address, geo-location information when you interact with our trading platform, cookies and Web beacons.

2.2 **Web Server Logs/IP Addresses**

NZ Farmers collects IP addresses to conduct system administration and report aggregate information to our affiliates, business partners and/or other parties to conduct site analysis and website performance review.

2.3 **Cookies**

- (a) Cookies allow us to store information on the server to help make the Web experience better for you (for example, our server may set a cookie that keeps you from having to enter a password more than once during a visit to our website or when using the trading platform) and to conduct site analysis and Web site performance review. Cookies are small data files that are downloaded onto your computer when you visit a particular website. Most browsers are set up to accept cookies, although you can reset your browser to refuse all cookies or to indicate when a cookie is being sent. Note, however, that some portions of our sites may not work properly if you refuse cookies.
- (b) In all cases in which cookies are used, the cookie will not collect personal information except with your permission. Your web browser can be set to allow you to control whether you will accept cookies, reject cookies or to notify you each time a cookie is sent to your browser. If your browser is set to reject cookies, websites that are cookie-enabled will not recognise you when you return to that website, and some website functionality may be lost. The Help section of your browser may tell you how to prevent your browser from accepting cookies.

3. **YOUR OPTIONS**

3.1 **Options**

You have several options regarding your use of our website. You could decide not to submit any personal information by not entering it into any forms or data fields on our website or the trading platform. Certain sites may ask for your permission for certain uses of your information and you can agree to or decline those uses. If you opt-in for particular services or communications, such as an e-newsletter, you will be able to unsubscribe at any time by following the instructions included in each communication.

3.2 **Cookies**

As described above, if you wish to prevent cookies from tracking you anonymously as you navigate our sites, you can reset your browser to refuse all cookies or to indicate when a cookie is being sent.

4. **SECURITY**

We use technology and security precautions, rules and other procedures to protect your personal information from unauthorized access, improper use, disclosure, loss or destruction. We engage the services of a reputable third party service provider to provide industry standard firewalls and password protection to ensure the confidentiality of your personal information. It is, however, your personal responsibility to ensure that the computer you are using is adequately secured and

protected against malicious software, such as trojans, computer viruses and worm programs. You are aware of the fact that without adequate security measures (e.g. secure web browser configuration, up-to-date antivirus software, personal firewall software, no usage of software from dubious sources) there is a risk that the data and passwords you use to protect access to your data, could be disclosed to unauthorized third parties. We will not be responsible for any breach of security caused by third parties and do not represent that our website or the trading platform are completely secure.
